

I am opposed to LPFM taking taking priority over FM Translator service. My family and I listen to the radio station 'K-Love' and it provides an outstanding service to us as a resident of our local community. We would be very unhappy if we were to lose the ability to listen to K-Love should this 'priority' take place. We travel often and K-Love provides many uplifting programs and is inspirational to us. These attributes are definitely in the public interest and it would be unfortunate to lose this type of choice that is currently available to us. Please don't believe that their broadcast serves no purpose or is of little interest because many people both listen to their broadcast and enjoy their programming. Thank you for your consideration.
